ADVERTISING DATES

Australian Canegrower runs important industry-related features providing advertisers an opportunity to target their message at a time when growers are most receptive to this information. Our features schedule is carefully planned by a team of agronomists, farmers and advertisers to give growers time to consider investments and make the necessary preparations.

Editorial packages are available on application. Editorials need to be relevant to the topic of the feature issue.

ARTWORK SPECIFICATIONS

A high resolution print-ready PDF file at 300dpi in CMYK format is the required format for supplied advertising artwork.

Crop marks are required with 3mm bleed and all fonts embedded—Include the publication date in the file name.

IMAGE SPECIFICATIONS

All photos/images supplied must be a minimum of 300dpi at 100% placement. Images can be supplied in JPG format.

For the highest quality print, it is recommended to supply your company logo as a vector EPS file. A high-resolution JPG file will also be accepted.

Do not include spot colours as your ad may produce unexpected results when printed.
